

Science Laboratory Safety Solution

Gas, Electric & Water Shut Off with Gas Pressure Proving

Compact, robust and reliable safety systems for science laboratories

Incredibly Easy to Use & Install

- ✓ Adjustable time-out facility
- ✓ Industrial Grade Polycarbonate material to withstand daily use
- ✓ Meets IGEM/UP/11 requirements for gas safety in educational establishments

GAS PRESSURE PROVING TECHNOLOGY

Gas Pressure Transmitter

The Merlin range of gas pressure proving panels will check for any leaks on the pipework or benches at start-up, along with low pressure and over pressure shut off.

Where a gas solenoid valve is installed in a science laboratory, ensure you include for a gas pressure proving system as per IGEM/UP/11.

The S&S Northern solutions are already protecting thousands of academic properties across the U.K.

Intuitive and accessible design makes the S&S range easy to specify, install and very user friendly.

Modern components compliment years of industry experience to provide a tidy solution to classroom safety.

Multiple inputs available to adapt the operation of the controllers, including fire alarm shut down and BMS communications.

Gas Safety Systems

Utility Control

S&S Northern Ltd. Wallace Francis House, Barnes Wallis Way, Buckshaw Village, Lancashire, PR7 7JN T. 01257 470983 www.snsnorthern.com

Designed in Accordance with IGEM/UP/11

We are the Leading Manufacturer of Laboratory Utility Control & Gas Shut Off Systems in the U.K.

SINGLE OUTPUT UTILITY CONTROL & GAS PRESSURE PROVING

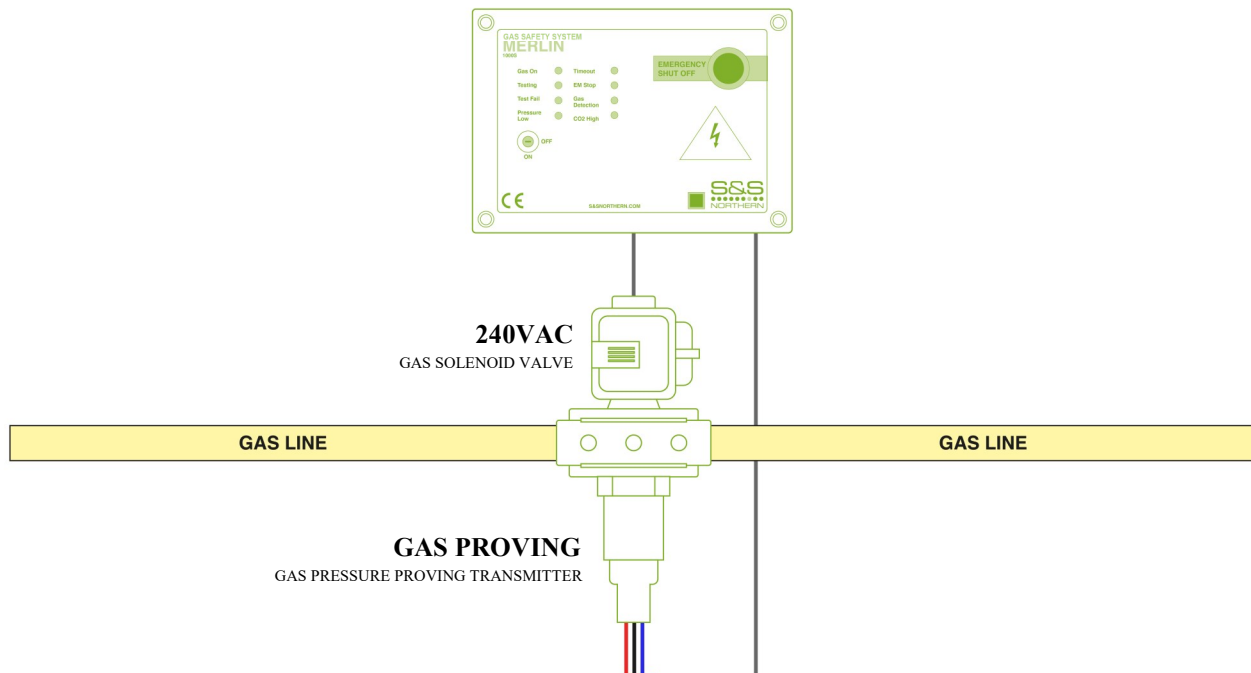

DUAL OUTPUT UTILITY CONTROL & GAS PRESSURE PROVING

TRIPLE OUTPUT UTILITY CONTROL & GAS PRESSURE PROVING

MERLIN 1000S GAS SAFETY SYSTEM INCORPORATING GAS PRESSURE PROVING & GAS DETECTION
